

MACON, GA. CHILD

Made Strong and Well by Vinol.

When we tell you that Vinol is the best remedy in our whole stock for making weak, puny, ailing children strong, robust and rosy we are only telling you what has been proved by hundreds of mothers.

J. L. Fickling, Macon, Ga., says: "My child was very thin and delicate, no appetite, nervous, and did not sleep well. Doctors did not help her. Vinol was recommended and the change after a fair trial was wonderful. She sleeps soundly all night, has a splendid appetite and has gained in weight. I wish every mother knew what Vinol will do for delicate children."

What Vinol did for this little girl it will do for every weak and ailing child because sickly children need the strengthening cod liver elements and the tonic iron that Vinol contains—that is why Vinol builds them up quickly and gives them a fine, healthy color. It is pleasant to take and we guarantee that the results will satisfy you—money back if they do not.

P. S.—If you have Eczema try our Saxo Salve. We guarantee it.

Hendersonville, N. C.

CLUB CAFE & CANDY KITCHEN.

During its history of twelve years the Club Cafe and Candy Kitchen of Theobald and Brandt on Haywood street in Asheville has grown to be one of the most popular places of the kind to be found in the country. It is here that individuals or parties find in the way of prompt and excellent service at reasonable rates what they are looking for when tired, hungry and looking for a neat, attractive, quiet and comfortable place. The Candy Kitchen makes all of its candies and puts them up in boxes at reasonable prices. During the past year it has doubled its floor space and made the quarters more modern and convenient. It has added a very attractive line of Christmas toys all of which are imported. This place fills the satisfaction of a large number of friends throughout Western North Carolina when they are visiting in Asheville, and caters to a large trade in that city. Their announcement is contained in this issue of the Hustler-Democrat.

THE APPALACHIAN PARK.

The Jackson County Journal after quoting the Asheville Citizen's editorial with reference to a disposition on the part of the people of Western North Carolina to oppose the Appalachian park reserve movement, speaks as follows:

The people of Western North Carolina, not a part of them, but all of them are the folks that are concerned. This section is their heritage. Their forefathers won it from the wild beasts and the Indians of the forest. Their ancestors protected it at King's Mountain. For it their fathers fought at Gettysburg and Chancellorsville. It is theirs and their children's children forever, and they we say have a right to know what this movement is, what it means and who is at the back of it. We do not know whether to oppose it or not for we do not know enough about it. But this much is certain; unless the people do know what is going on, there will be opposition to the movement from every cove and creek and mountain peak in Western North Carolina.

Turn on the light, gentlemen. Turn on the light.

NEEDS OF DEEPER PLOWING

IN HENDERSON COUNTY.

Farm Demonstrator Perkins Outlines Plans to Farmers Whereby They Can Greatly Increase Crop Yield.

Editor Hustler-Democrat:

In my travel and study of Henderson County, I find thousands of acres of land which need deeper plowing than it is receiving today. Is it the lack of more and heavier work animals on the farm? Is it the lack of time to do this kind of plowing? Is it because men think that it will not pay them to plow deep? Is it because some of our friends have plowed deep in the spring and have failed to make it pay? Is it because it is human nature to do those things which we know are wrong? Is it our old, old way that has us handicapped? Is it for the reason that we are not able to buy the machinery necessary to do these things? Is it because we have not really studied the matter over?

The average depth of breaking in North Carolina is about three inches. Can you store up enough water in three inches of soil to produce an average crop of corn?

It requires ten inches of water to produce a crop of 25 bushels of corn to the acre. It is calculated that it takes ninety gallons of water to each stalk of corn that grows on your farm. How are we going to store up that much moisture in the soil? Below I shall point out some of the advantages of deep and thorough preparation.

The most efficient means of assisting nature in the conversion of unavailable food into forces that plants can use is good tillage of the soil. Tillage, in the sense in which it is used here, signifies any operation of stirring and pulverizing the soil by means of plows, harrows, cultivators or any other implements. "If a subsoiler can't be had, use a bull-tongue plow."

The most noticeable result of

tillage is that the soil is made finer, the large lumps being broken up into smaller particles, and in this way nature's work in the formation of soil is hastened. Pulverization of the earth is beneficial in many ways. In the first place, loosening the soil makes it easier for the plant roots and root-hairs to penetrate it. All soils are composed of grains of greater or less dimensions separated by air spaces. The tender root-hairs must push their way in between these soil-grains, as it is impossible for them to penetrate the soil particles themselves. It must be evident that the more the soil is pulverized the larger the number of openings between grains, and consequently, the greater room for root growth.

The plant is dependent upon the root-hairs for its supply of mineral food and, as these hairs grow only between and around these soil grains, it is apparent that they can feed it only on the surface of these particles. Good tillage increases the amount of surface exposed to the roots by breaking up the larger lumps into smaller grains; and the more complete the pulverization the larger the area from which the plant can obtain its food.

Tillage hastens chemical changes in the soil. By tillage we bring together particles which have not before come into contact. In this way chemical changes take place that render those "locked up" plant foods available, for substances having different chemical properties are thus enabled to act upon each other. The changes brought about by freezing and thawing can not be carried on to much depth in Henderson County without the aid of the plow.

This can be done by the use of the plow in the field, leaving it rough so that the most space possible can be exposed to the winter rains and snows. Freezing and thawing bring about disintegration of the clods, and the resulting improvement is great on any land that is inclined to be Good "preparation" aerates the

soil. The oxygen of the air has a direct chemical action upon the mineral matter of the soil in that it tends to make the latter soluble. Tillage Aids Nitrification.

Most of the nitrogen of the soil is locked up in insoluble organic compounds, and before it can be used by the plants it must be converted into the form of nitrates. This process takes place only in a soil well supplied with oxygen, and experience has proven that this process is very materially hastened by frequent cultivation. The bacteria which enable legumes (peas, clovers, etc.) to use free nitrogen are also dependent upon the air in the soil, for not only do they need oxygen, but experiments have shown that it is only from the air in the soil that they can draw their supply of nitrogen.

Deep, thorough preparation not only increases the amount of surface on which the plants can feed, but at the same time enlarges the water supply by giving the soil greater capacity for holding moisture. Each soil-germ is surrounded by a film of water which is called the capillary water or film moisture. The plant is dependent upon this film moisture for its supply, and it is readily seen that the amount of the capillary waters that the soil can retain depends upon the depth and thoroughness of the surface area which you have prepared. If an acre of ground is so tilled or pulverized as to reduce the average diameter of the soil particles to one tenth the original diameter, the plant now has ten acres from which to draw its supply of water and mineral food for each acre it had before; and the soil is enabled to hold as film moisture ten times as much water as it comes in the first instance. Thousands of acres of corn is handicapped at certain dry periods of the summer for the lack of a sufficient amount of water.

Ernest L. Perkins,
Farm Demonstrator.

DR. A. H. Morey

has the assistance of Dr. W. H. Vander Lunden, a graduate from the Atlanta Central college and fresh from practice in Durham, N. C. He will have charge of Dr. Morey's office, while the latter takes a much needed rest, ordered by his physician. Dr. Vander Lunden's credentials are in class A1, and Dr. Morey solicits your confidence, assured by his accustomed responsibility.

STOMACH SUFFERERS

If You Wish To Obtain Complete and Permanent Results Try
Mayr's Wonderful Stomach Remedy
One Dose Will Convince You

Mayr's Wonderful Stomach Remedy is well known throughout the country. Many thousands of people have taken it for Bloating, Liver and Intestinal Ailments and report marvelous results and are highly praising it to others. Astonishing benefits sufferers have received even from one dose are heard everywhere and explain its tremendous sale. It rarely ever fails and those afflicted with Stomach, Liver and Intestinal Ailments, Indigestion, Gas in the Stomach and Intestines, Dizziness, Fainting Spells, Colic Attacks, Torpid Liver, Constipation, etc., should by all means try this remedy. The benefits stomach sufferers who have taken Mayr's Wonderful Stomach Remedy have received is in most cases a lasting one. After you have taken this Remedy you should be able to digest and assimilate your food, enable the heart to pump pure red blood to every part of the body, giving firmness and strength to the muscles. Lustre and sparkle to the eye, clearness and color to the complexion and radiance and brilliancy to the brain. Do away with your pain and suffering and this is often possible with even one dose of Mayr's Wonderful Stomach Remedy. Interesting literature and booklet describing Stomach Ailments sent free by Geo. H. Mayr, M.D., Chemist, 154-156 Wabash St., Chicago, Ill.

Bon Marche

Asheville's Great Gift Store

Bon Marche

We will Pay Your Railroad Fare to Asheville and Return

This offer has been accepted by scores of people from Hendersonville and other places. It gives you a chance to trade in Asheville at practically no expense to you. The Bon Marche, as one gentleman expressed it, "is the most civilized spot in Asheville," meaning of course that the store was up-to-date and equal to the large shopping places in the eastern cities.

We pay your railroad fare provided:

You live within a radius of 25 miles, you buy \$20 worth or more. * If you live 30 miles, \$25, and 50 miles, \$30.

This shows you that Hendersonville is in the first zone, \$20 worth of merchandise and your fare refunded.

Provided the sale is for CASH and you have a railroad receipt.

Bath Robes and Sweaters to Give at Christmas Time

This department shows many delightful Gift Things. Bath Robes are highly appreciated, whoever you buy them for. The selection of Sweaters comprise the novelties as well as the regular coat effects.

Men's and Women's Bath Robes in all colors, many attractive designs, sell for \$3.75 to \$7.50.

Bath Robe Blankets, in all colors, are priced at \$2 to \$5.00.

Children's Bath Robes, some for the wee tots, sell at \$1.25 to \$2.50, in the following colors; pink, red, tan and blue.

This section shows the best makes of knit silk and muslin Underwear.

Christmas Sale of Ready-to-Wear Apparel OUR BEST VALUES

First comes the reason for these unusually large reductions on fine, seasonable garments. This Autumn has been one of the mildest in the memory of the Oldest Inhabitant. Winter wearings have not been so much in demand as they would have been, if weather conditions had been more favorable to them.

However that is neither here nor there, it's up to us to sell them and we are going to do it with these unprecedented low prices.

\$17.50 and \$20.00 coat suit your unrestricted choice at \$9.75.

\$25.00 coat suit, including the Wooltex Models, first time reduced for \$14.75.

\$35.00 fine coat suits, including Wooltex Suits for \$19.50

Other Suits up to \$65.00 are priced at \$29.50

\$15.00 silk or wool dresses, chic models for \$8.95

\$12.50 wool dresses, all sizes, good colors for \$7.95

\$20.00 wool and silk winter frocks, excellent grade for \$12.95

\$25.00 Street and evening dresses, all colors, for \$14.95

\$30 silk evening and street dresses are to go at \$18.95

\$6.50 Separate skirts, new styles, for \$4.95

All other separate skirts, winter 1913 models at 10 per cent off.

\$15.00 Sport coats, all good colors, belt effect, for \$9.75

\$12.50 to \$50 tailored coats, newest models are to sell at \$9.75 to \$39.50.

\$5.00 and \$6.00 waists, chiff ons, nets, silks, etc., for \$3.95

\$15 to \$125.00 sets of Fine Furs, the Gift de Luxe, at 10 per cent off.

Christmas Hosiery

All the following come in fancy Christmas Boxes.

4 pair of Cadet Hose, black, for \$1.00 box.

4 pair of Gordon Hose, fine thread, black, for \$1.00 box.

3 pair of heavy black cotton hose, Gordon make for \$1 box.

2 pair of Notaseme black silk hose, sell for \$1 box.

The above are all Ladies' hose. We have men's hose in boxes for Christmas giving also at about the same prices.

Children's Shoes

Don't fail to investigate our children's SHOES on your next trip. We consider them the best collection of durable shoes for children ever shown in Asheville. In fact our confidence in them leads us to guarantee their worth. If they do not wear, you get a new pair. That's as fair as anyone could ask. Prices range from \$1 to \$3 pair.

Fancy Neckfixings

All Western North Carolina will admire the beautiful showing of neckwear here this season. Of course we are going to say it's the best ever, but you'll really be astonished at the breadth of beauty of the display. There are jobots, fichus, ruffs, collars, ties, ruffings, etc., that would fill a large store in themselves.

Dolls for the Children

Way back yonder in the first of 1913 we placed a number of import orders for dolls. By knowing what we wanted so early we received a lower price than the general run. Kewpie dolls, little joys forever, are priced at 25¢ to \$1.00. Fanny jointed dolls, 22 inches long, blond and brunettes, are priced at \$1.50 Special.
